May 29, 2019

Dear Sir or Madam,

My name is Oenga Ongwae John, a recent graduate from Dedan Kimathi University of Technology. I graduated in 25th April, 2019 with a B.sc. in Computer Science. An alumni forwarded me a internship posting about your Internship Opportunities at KenGen. I'm very interested in the internship, which sounds like it would be my ideal opportunity to enhance my skills because I'd make a great fit for your agency.

I realize you're looking for a candidate who will be available on full time for the duration of the programme (6months), graduated within the last 3 years with a relevant Degree or Diploma obtained from an accredited institution, of age ranging between 21-29 years as well as who has not undertaken any other internship programme or exposed to work experience related to their area of study after graduation.

As an attache in the National Hospital Insurance Fund prior to completion of my studies, I was responsible for network administration, computer systems maintenance and IT support. During my final semester at Dedan Kimathi University, I was involved in leading group of students in Peculiar Generation group in a campaign for jigger eradication project. Through this project, I learned how to collaborate with others and work effectively in a team in order to accomplish a common goal.

With a Bsc. degree in Computer Science, I have a comprehensive understanding of ICT projects. I also have experience in learning and applying new technologies as appropriate. It will be a great opportunity to work with you as I will gain invaluable experience if I will work with you. I believe that I would be an asset to your program. This internship would provide me with the ideal opportunity to assist your organization and to expand my computing skills. Thank you for taking the time to review my application and consider me as a candidate.

I look forward to hearing from you soon!

Sincerely yours,

John Oenga
